EXPERIENCES

WEB DESIGNER AT DOODLE DESIGNS

Chennai – TN – IND | Dec 2024 - Mar 2025

- Developed responsive, mobile-friendly websites using HTML, CSS, JavaScript, jQuery, and Bootstrap, ensuring cross-browser compatibility and optimized performance across desktop and mobile devices.
- Built interactive web pages based on client requirements by implementing new UI components, enhancing user interfaces, and resolving front-end issues to improve user experience.
- Maintained and updated live college and school websites by managing content, images, banners, page layouts, announcements, and custom web sections.
- Managed website deployment and hosting through cPanel, including code deployment, file management, domain configuration, website backups, content publishing, and production issue resolution.
- Performed website maintenance, quality assurance testing, responsive design improvements, front-end bug fixes, and performance optimization to ensure reliable functionality.
- Designed custom website banners, promotional graphics, and marketing assets using Adobe Photoshop, Photopea, and Canva, maintaining consistent brand identity.
- Converted design mockups and client concepts into clean, reusable, and responsive web pages following front-end best practices.
- Created presentation materials (PowerPoint) and basic promotional video content to support digital marketing and client communication.

WEB DESIGNER AT SRKIT SOLUTIONS PVT LTD

Chennai – TN – IND | Oct 2022 - Sep 2023

- Developed and maintained responsive **WordPress** websites using **Elementor**, **WPBakery**, and **custom plugins**, delivering client-specific features and functionality.
- Customized WordPress themes, templates, page layouts, and CSS to create unique, brand-focused website designs aligned with client requirements.
- Built dynamic landing pages and reusable UI components using **HTML5**, **CSS3**, **JavaScript**, **jQuery**, and **Bootstrap**, ensuring a consistent and engaging user experience.
- Integrated and configured third-party plugins, contact forms, Google Maps, social media, and other website functionalities based on project needs.
- Optimized website loading speed, image assets, and front-end code to improve performance, usability, and search engine visibility.
- Performed website content updates, banner replacements, page creation, bug fixing, and regular maintenance for live client websites.
- Tested websites across multiple browsers and devices, resolved compatibility issues, and ensured responsive layouts on desktop, tablet, and mobile.
- Collaborated with designers and clients to gather requirements, implement revisions, and deliver projects on time while maintaining quality standards.

WEB DESIGNER AT SVASAMSOFT

Karaikudi – TN – IND | Aug 2014 - Aug 2015

- Developed responsive and cross-browser compatible websites using HTML5, CSS3, JavaScript, Bootstrap 3, and Media Queries, ensuring optimal performance across desktop, tablet, and mobile devices.
- Translated UI/UX designs into pixel-perfect, reusable, and maintainable front-end code while improving accessibility, usability, and page performance.
- Delivered custom website solutions for industries including Education, Industrial, Agriculture, Jewellery, Pet Care, and Wedding Services, aligning designs with client branding and business objectives.
- Worked collaboratively with designers and clients to implement feedback, enhance user interfaces, troubleshoot front-end issues, and ensure on-time delivery of high-quality web projects.
